

Trailside Vineyard

A single-vineyard Rutherford Cabernet Sauvignon conceived by two of the industry's most experienced and well-known professionals, Carlton McCoy Jr. MS, and Jeremy Seysses of Domaine Dujac.

With the first release of Trailside Vineyard's 2022 vintage, the duo crafted a profound single-vineyard wine made in a terroir-driven, ageworthy style that is an homage to Napa Valley's glory days of the 1960s and 1970s, which they both adore. Their hope is to restore a great vineyard's rightful reputation simply by making a wine that they would love to drink.

Their source is a historical vineyard in Rutherford—once called Wildwood Ranch—that was once a source for Spring Mountain Vineyard's and Heitz Cellar's Napa Valley Cabernet Sauvignon in the 1970s and 1980s. Located on Rutherford's east side, it is north of Beckstoffer's Georges III. A pedigreed site hiding in plain sight for decades, the vineyard is notable for its diversity of gravel, volcanic and loamy soils.

The inaugural release is 100% Cabernet Sauvignon, from the 2022 vintage, crafted to produce the most complex and complete expression of this site. It is farmed, harvested, and fermented according to each climat's individual soil type, of which there are seven. Fermentations began with a traditional pied de cuve
